SKILLS

Languages:

Java, Javascript, NodeJs, Python

FrameWorks:

ExpressJs, SpringBoot, Django, Flask

Databases:

MySQL, MongoDB, PostgreSQL.

Testing:

Jest, JUnit, Mock

Source Control:

Git, GitHub.

Problem Solving:

Design & Critical Thinking, Industrial Design

DevOps:

Render, Vercel, Docker

LANGUAGES

- English Language - Fluent
- Yoruba - Native

PROFILE

Highly Motivated Backend Developer with expertise in building robust and scalable web applications using SpringBoot, Node.js, JavaScript, and related frameworks to deliver exceptional results. And also possess a well-rounded skillset including languages like Java and Python, Thrive in collaborative environments and bring a passion for innovation to every project. Committed to exceeding expectations and continuously learning new technologies to stay ahead of the curve.

PROFESSIONAL EXPERIENCE

Backend Developer

02/2024 - 04/2024

StatVital Project

- Designed and implemented RESTful APIs to handle web app functionalities including user authentication and authorisation, data retrieval and data processing.
- Configured and maintained a specified the database system, ensuring efficient data storage and retrieval.
- Worked closely with frontend developers to ensure API compatibility with the React based frontend.
- Deployed the application on Render, managing server uptime and optimizing performance for scalability.

Backend Developer(intern)

03/2024 - 05/2024

Semicolon Africa, Lagos State.

- Utilize Java Springboot within Agile development lifecycles to deliver features iteratively.
- Actively participate in development, testing, and deployment cycles through regular sprints and CI/CD pipelines.
- Collaborate closely with cross-functional teams to integrate functionality efficiently, optimize performance, and implement robust security measures within user stories.

Software Engineer Trainee

03/2023 - 04/2024

Semicolon Africa, Lagos State

- Analyzed user requirements, translating them into actionable user stories and crafting tailored software solutions.
- Specialized in debugging and bug fixing. identified and resolved issues promptly, while ensuring system stability and user satisfaction.

EDUCATION

**Software Engineering
Diploma**
Semicolon Africa.
Lagos State, Nigeria.

03/2023 - 04/2024

**Zoology and Environmental Biology
Bachelor's Degree**
Honour - Second-class lower
Ekiti State University, Ado-Ekiti
Ekiti State, Nigeria.

09/2012 - 04/2018

PROJECTS

- **StatVital:** A data recording application
Technologies: Java, SpringBoot, Mysql, JavaScript, Github
Link: <https://github.com/StatVital-Backend/VitalStat>
- **Kin-Connect:** Real-Time tracking Application
Technologies: Python, Django, Mysql, Github
Link: <https://github.com/Oluwaseyi69/Kin-connect>
- **PadiBet:** A Peer-to-Peer Betting Application
Technologies: Java, SpringBoot, MongoDB, Github
Link: <https://github.com/Oluwaseyi69/bet-me>
- **Buddy:** A Group Chat Application
Tools Used: Java, Springboot, Html,CSS, MongoDB, Github
Link: <https://github.com/Oluwaseyi69/Buddy>

CERTIFICATIONS

- Java Certificate: HackerRank
- CyberSecurity Expert: Google certification
